CLASH IN TRANSVAAL

British and Boers Have Another Severe Encounter.

LOSS ON BOTH SIDES.

The British Captured Three Guns and Much Ammunition—Boer Peace Terms Is a Request to Communicate With Kruger.

London, April 14.—News of severe fighting at the end of last week has been sent by Kitchener, who reports about 200 Boers killed, wounded or captured. There were about 100 British casualties.

The British captured three guns and a considerable quantity of supplies.

Commandant Poigister was among the Boers killed.

Replying in the house of commons to the Liberal leader, Sir Henry Campbell-Bannerman, who asked whether any terms of peace had been suggested by Boer leaders in South Africa, the government leader, A. J. Balfour, said it was impossible at the present to say more than a message had been received Saturday from Boer leaders through Kitchener and, that a reply had been sent to them. He said further communication was expected.

It is said communication of Boer leaders to Kitchener amounted to little more than a request for permission to use the cable in consulting Kruger and Boer delegates in Europe regarding the basis for peace settlement.

There is a distinctly hopeful feeling in official quarters.

NEUTRALITY VIOLATION.

Reported Officers Decides British Camp Is Violating Law.

Chicago, April 14.—The United States government's investigation of the big British stock camp at Port Chalmette has practically been concluded. Officers at New Orleans, says a Tribune's correspondent, contend the finding to be that the post is in violation of the neutrality laws, and that admissions of British officers in charge afford sufficient proof of this fact.

The evidence collected privately by Colonel E. H. Crowder, the investigation officer assigned by Adjutant General Corbin, and by secret service and army officers now stationed at Jackson barracks, constitutes the final report, which will be forwarded to Washington within a few days.

There will be no public inquiry. Army officers at Jackson barracks, who supplied part of the information to Colonel Crowder, contend, according to the Tribune's special, that the place, on evidence given by English officers themselves, can stand as nothing else than a continuous supply post for the British army.

BRITISH DEFICIT.

It Has Reached More Than Two Hundred Million Dollars.

London, April 14.—The chancellor of the exchequer estimated the total deficit for the present year at £26,824,000. The deficit must be added £16,000,000 or £17,000,000 additional war expenditures.

The chancellor of the exchequer said he had hoped of a happy result from the conference in South Africa, but he had put them aside. He said preparations for the continuance of the war were the best guarantee of peace.

The grand total of the deficit is £4,500,000.

The duties on wine, beer, tobacco and tea are not changed.

Judge Collard Dead.

Austin, April 14.—Judge J. F. Collard, associate justice of the court of civil appeals of the Third district, died at his home here. The cause of death was an attack of pneumonia contracted a week ago. Judge Collard was 63 years of age, and leaves a wife and several children. He had been associate justice since the organization of the court in 1822.

Investigation Resumed.

Austin, April 14.—The legislative investigating committee has resumed sessions here. It is given out it would commence immediately the investigation of the treasury and comptroller's departments. Report on penitentiary was that the management was good but the system poor and needed change.

Germany's Colonial Expenses.

London, April 14.—Germany's efforts to extend and open up colonies are not very successful from a financial point of view. The total amount of revenue of the eight protectorates which are under the rule of the kaiser is only \$2,000,000, and the reichstag had to vote \$7,500,000 to support them.

Railroad Voluntarily Raise Wages.

Chicago, April 14.—Railroads of

Chicago have voluntarily increased the wages of freight handlers. The advance varies in different departments, but total increase is \$25,000 per month, and affects 8000 men employed in freight depots of Chicago.

Only Two Men Killed.

Muskogee, I. T., April 14.—It transpires that but two persons were wounded in the fight at Bragg, in the Cherokee Nation, where it was reported four men were killed and several injured.

GIRL AND BOY KILLED.

They Were Murdered While Returning from Church Sunday Night.

Des Moines, Ia., April 14.—While returning from church on the northern outskirts of the city, Sunday evening Hulda Peterson, 15 years of age, and John, aged 11, children of Peter J. Peterson, a well-to-do dairyman, were murdered by some unknown person, believed to be a negro.

The boy, when found at midnight, was alive, but died without being able to give a description of the assailant.

The bodies were discovered by the roadside by a farmer who heard the moans of the lad. Their heads had been crushed in, presumably by a brick. It is believed the crime was committed by a negro, who intended to ravish the girl, but was frightened away before he could carry out his designs.

STRIKES IN BELGIUM.

At Several Points General Strikes Are on and Some Rioting.

Brussels, April 14.—Dispatch from Lalouviere, a town in the province of Hainaut, announces that in accordance with the decision of labor leaders a general strike has commenced in coal mines, glass works and factories of central districts, including Mariemont and Bascoup.

Advices from Liege says a general strike has been started in the coal mines of Seraing district and at Keming foundries at Soulessing.

The quarryman of Ambly valley have struck.

There has been rioting at Poulseur, where the convent of Little Sisters of the Poor has been stoned.

Died While on the Jury.

Paris, Tex., April 14.—Capt. O. F. Parish, an old resident and well-known citizen of Paris, died suddenly at 10:30 o'clock Saturday night in a room at the Kimball hotel. He was a member of a jury in the case of Sam McHenry, charged with murder, on trial in the federal court. The trial was begun Saturday, and, not having been completed, the jury went to the hotel in charge of Bailiff J. J. Campbell to spend the night. While sitting on the side of his bed, laughing and talking to some of the other jurors, he began to cough, and suddenly fell backward and expired, apparently choking to death. A singular coincidence connected with his death is that at a former trial of the McHenry case a death occurred in the family of one of the jurors and a mistrial had to be declared and the case continued. Capt. Parish came to Paris from Arkansas in 1874. He was 63 years old and was a gallant officer in the Confederate army.

Washouts Causes a Tie-up.

Paris, Tex., April 14.—A washout up the Frisco line between Albion and Talihna, I. T., Saturday, resulted in a temporary tie-up of freight and passenger traffic. The northbound flyer was compelled to lie over here, and returned south on the schedule of the southbound flyer, while the latter went back to Fort Smith. The washout occurred in a draw which comes down from the Seven Devils mountains, and was caused by a cloudburst. The damages have been repaired.

Officers and Desperadoes Fight.

Kansas City, April 14.—In a fight between officers and desperadoes near Bragg, I. T., four men are reported killed and seven wounded, among them a noted outlaw.

It is impossible to reach Bragg by telegraph or telephone, and details are lacking.

Succeeds Hampton in Command.

New Orleans, April 14.—Gen. J. B. Gordon, commanding the United Confederate Veterans, in an order directs that Major Robert White, commander of the West Virginia division, assume command of the army of northern Virginia, department United Confederate Veterans, until the next meeting, vice the greatly lamented Lieutenant General Wade Hampton, deceased.

Over One Hundred Years Old.

New York, April 14.—Mrs. Hannah Bartow is dead at her home in New Brunswick, N. J. She would have been 106 years old on May 1. In her younger years Mrs. Bartow was a servant for Commodore Vanderbilt. When Lafayette passed through this city, she helped cook the dinner for him and his staff.

Fires in Maryland Counties.

Upper Marlboro, Md., April 14.—Alarming reports of extensive fires burning over a wide area in Prince George's county have been brought to Upper Marlboro. It was reported that in the neighborhood of Centreville, where fires were raging, the roads were impassable. No lives are reported as having been lost thus far.

Snowstorm in Nebraska.

Omaha, April 14.—A snow storm which set in early Sunday in western Nebraska, continued a greater part of the day, and in a greater number of counties fell to a depth of seven inches. The temperature is reasonable, however, and in most cases the snow melted as fast as it fell and will supply much-needed moisture.

Major Waller Acquited.

Manila, April 14.—Major Littleton W. Waller of the marine corps has been acquitted. He was tried by a court-martial on the charge of killing natives of the island of Samar without a trial. The court stood eleven to four for Waller's acquittal.

Riots Continue at Brussels.

Brussels, April 14.—Riots still continue here despite every effort of police and militia. Many persons here have been killed and wounded during efforts to stop gathering within the past week.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be its nutrient is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jepkins Drug Co.'s store. Get Green's Special Almanac.

PREPARATIONS FOR LEE.

Probably never in the history of Bryan has there been such interest manifested in a public event of its character as is being shown in the coming to Bryan next Friday of Major General Fitzhugh Lee, U. S. A.

General Lee will deliver his famous lecture on "War and Peace in the United States and Cuba" at the opera house next Friday night.

The prominence of this distinguished Southern orator, warrior and statesman, coupled with his immortal connection with the five years existence of the Confederate States—all spent in warfare and as a leader who ranked with his uncle, Robt. E. Lee, Stonewall Jackson and Wade Hampton endear him to Southern people in such a way that hundreds will be present to greet him for his personality alone; while his brilliant record as an orator and statesman and his lately achieved national reputation as an author and lecturer assure a hearty attendance and a thoroughly delightful one.

Houston, Waco and San Antonio are making grand preparations for the reception and entertainment of this distinguished man. Confederates, U. D. C.'s, and military companies will meet him at the depots and do him all honor possible.

General Lee is probably the most distinguished gentleman who ever visited Bryan and will doubtless meet a packed house at the lecture.

Some important announcements will be made soon as to special arrangements for this event.

IF YOU WANT TO SELL farm or those City Lots you are hereby notified that we would be pleased to have them on our list as early as possible in order to have them well advertised before summer.

Ocean Race for Yachts.

New York, April 14.—An ocean race from Montauk Point to Gravesend bay, by way of Sandy Hook, is one of the features of the annual cruise of the Brooklyn yacht club, just announced by Commodore Cook. The annual cruise in July will be from port to port on Long Island Sound, sailing eastward until Shelter Island is reached. Those yachts entered in the ocean race will then sail for Montauk Point, where the start will be made.

Left Property to Dowie.

Chicago, April 14.—By the terms of Frederick Sutton's will, filed for probate in the Lake county court, John Alexander Dowie, head of the Zionists, and who styles himself Elijah II, is made heir to an estate of \$50,000, most of which is in New Zealand, whence his benefactor comes. Sutton had left all he had to Dowie, but a few days before his death, concluded to remember his sister and three brothers, who are still in New Zealand. A codicil providing for them was filed with the will.

Will Make Bust of King Edward.

New York, April 14.—Private advices just received here are to the effect that Miss Isabel Corbly Minor, the sultrress, has received the commission to make the first bust of King Edward after the coronation in June. About the same time she will become the bride of Harold M. Vernon. Miss Minor is the daughter of a wealthy resident of Cleveland, Ohio. Mr. Vernon is a native of Lexington, Ky.

Boy Charged With Counterfeiting.

Louisville, April 14.—Philip Hans, a fourteen-year-old boy, in his freshman year at Manual Training High school, has been arrested by Secret Service Agent Donella on the charge of making counterfeit nickels and quarters. The boy's story is that he found the money, but the secret service agent declares that he has made use of the dies and molds employed in the working department of the schools. The counterfeits are crude.

Two Million Inheritance Tax.

Milwaukee, April 14.—The federal authorities intend to demand over \$2,000,000 inheritance tax on the will of the late Daniel Wells, Jr. The estate is estimated to be worth \$15,000,000. A number of bequests to charitable institutions were made by Mr. Wells in his will. Barring these the entire tax, if collected according to the provisions of the law, would be about \$2,000,000, one of the largest ever imposed by the government.

Jewish Family Murdered.

St. Petersburg, April 14.—A dispatch from Kovno, capital of the government of the same name, announces all members of a Jewish family, numbering seven persons, residing near that place, have been slain by robbers, who beat out their brains with axes. Texas has been blessed with another million dollar rain.

Satisfied that his candidacy for governor will take care of itself, Congressman Lanham has returned to Washington.

Death has claimed another man of world-wide reputation in the person of Dr. Talmage—a man whose almost matchless eloquence has thrilled the hearts of tens of thousands for nearly half a century, and fired many a breast with zeal for high and noble things. The influence of such a man—cumulative in its effects—is something stupendous, never-ending. Such a life may well be regarded with awe by many of us in our narrow and selfish careers.

PREPARATIONS FOR LEE.

Probably never in the history of Bryan has there been such interest manifested in a public event of its character as is being shown in the coming to Bryan next Friday of Major General Fitzhugh Lee, U. S. A.

General Lee will deliver his famous lecture on "War and Peace in the United States and Cuba" at the opera house next Friday night.

The prominence of this distinguished Southern orator, warrior and statesman, coupled with his immortal connection with the five years existence of the Confederate States—all spent in warfare and as a leader who ranked with his uncle, Robt. E. Lee, Stonewall Jackson and Wade Hampton endear him to Southerners in such a way that hundreds will be present to greet him for his personality alone; while his brilliant record as an orator and statesman and his lately achieved national reputation as an author and lecturer assure a hearty attendance and a thoroughly delightful one.

Houston, Waco and San Antonio are making grand preparations for the reception and entertainment of this distinguished man. Confederates, U. D. C.'s, and military companies will meet him at the depots and do him all honor possible.

General Lee is probably the most distinguished gentleman who ever visited Bryan and will doubtless meet a packed house at the lecture. Some important announcements will be made soon as to special arrangements for this event.

The EYE

The Eye is a wonderful piece of divine mechanism, and deserves the best care within the reach of human knowledge. The delicate construction of this organ makes it necessary to use great care in selecting eyeglasses and spectacles. It is not generally understood by those depending upon artificial assistance for good vision, that it requires as much skill and scientific knowledge to adjust lenses to the eye as it does to prescribe medicines for the human system. Much of the present day eye trouble is due to wearing cheap, decentered lenses. No person should wear a glass unless prescribed by a reliable eyesight specialist, one thoroughly acquainted with anatomy, physiology and diseases of the eye, laws of light and science of optics.

Ordinary failing eyesight is by some regarded as alarming—by others treated too carelessly. All eyes begin to fail at 40 years of age, some have troubles a year or two before that time, the majority not till after. Ninety per cent of eye troubles are due to "putting off" the use of glasses after failure begins, or to wearing of wrong ones. Age, however, is no criterion for the wearing of glasses. Many are born with greater defects than come with the advance of years. When the need of glasses is actually evidenced, the CHILD OF TEN needs them much more than the adult of eighty. Nerve and muscle strain, due to the eye defects of children, act as an impediment to mental and physical development. What the eye sees is telegraphed at once to the brain. Strain the nerves of the eye and the brain is made to feel and suffer. Eye testing and glass fitting has advanced to a science—even to the man who has perfected himself in that science, there is no one test which can always be depended upon for accurate results. That a complete and reliable diagnosis of the Eye can only be reached by the use of several tests is becoming universally acknowledged.

SYMPTOMS OF EYE DEFECTS, SHOWING THE NEED OF GLASSES OR NEED OF DIFFERENT GLASSES.

Headache, dizziness, aversion to bright light, inability to see at close range, with perfect distant vision, sleepy feeling and desire to close the eyes when reading, or lines and letters running together, darting pains in eyeballs or temples, acquired cross eyes in children under ten years of age, blurring of vision, or inability to see objects distinctly at a distance, holding reading or close work either beyond or inside the normal distance of twelve inches, fatigue, or requiring a stronger light when reading, smarting or burning sensation in or about the eyes, seeing objects double, quivering of lids, or jerking of muscles in and around the eyes, dark floating spots or bright lights flashing before the eyes, turning head sideways to look at an object, or holding object too close, watering of the eyes. This is an age of Specialists. The ability to do one thing and do it well is more to be commended and is of more benefit to humanity, than to do many things and none equal to the best. We limit our practice on the eye to errors of refraction, and thoughtful people are showing their appreciation of the specialist who devoted his time and study to acquiring knowledge of the eyes, and individual eyesight peculiarities.

CONGRESS THIS WEEK

Chinese Exclusion Act the Contention Before the Senate.

VOTE ON WEDNESDAY

The House Will Devote the Week to Cuban Reciprocity Bill and the Measure May Possibly Remain Unpassed.

Washington, April 14.—In accordance with the agreement reached on Friday last, the senate on Wednesday will vote on the Chinese exclusion bill and the present understanding is that the Philippines government bill will be taken up immediately afterwards. It is the present belief, however, that the Philippines bill will soon be broken in on by the calling up of the rivers and harbors bill. Being an appropriation bill, it can be taken up at any time, but it is not the desire of the committee to have it considered until there shall have been a chance offered to make further amendments in committee. That opportunity will not be provided until Thursday following the vote on the Chinese bill. The opponents of the Chinese bill will press their fight from this time forward and if they find that they cannot secure its recommittal, they will concentrate their efforts on proposed amendments. Special effort will be made to secure the adoption of the Platt substitute.

The leaders of the house expect to see the Cuban reciprocity bill passed during the present week, but they admit that the debate may be prolonged so that the final vote will not be reached until next week. As the debate is without a rule, it can be drawn out practically as long as anybody desires to speak, but the leaders believe the general debate will exhaust itself by Thursday at the latest. Mr. Dalzell will close the general debate in favor of the bill.

When the measure is thrown open for amendment under the five minute rule, a great number of amendments will be offered by the Democrats with a view to opening up a way for amending the schedules of the Dingley tariff law. It is known in advance that all amendments will be held to be not germane to the bill, whose title provides for reciprocity with Cuba and only amendments raising or lowering the amount proposed in the concession will be held to be in order. Appeals may be taken from the rulings of the chair on the general tariff amendments, but it is thought that with one general exception, the appeals will be unsuccessful. That exception may be the amendment to take the differential off refined sugar.

It is admitted on both sides of the chamber that the real fight will come on that amendment. A number of Republicans who are opposed to the bill have announced that they will vote to overrule the chair on that proposition, and the Democrats expect to be able to cast a solid vote for it. The weakness of the position of the friends of this proposition is that the test will not come directly on the amendment, but on the ruling of the chair. If a motion to recommit with instructions to report back such an amendment is made, it will be held not to be in order under the general authority of parliamentary law that the house cannot instruct the committee to do what itself cannot do.

If the danger involved in the amendment to abolish the differential is passed the bill will have plain sailing on its final passage as a majority of the Democrats will vote for it.

Two Women Killed.

Cleveland, O., April 14.—Mrs. Martha J. Calhoun, aged 75 years, and her daughter, Mrs. Vaughn, aged 46, were shot and killed here by an unknown person, near Mantua station, 40 miles from here. Will Vaughn, a step-son of the younger woman, is locked up in the Ravenna jail as a suspect. Blood stains were found on his trousers. He says the stains came from a cut finger.

Specialist Probably Suicided.

Macon, Ga., April 14.—Dr. R. O. Cotter, a specialist of prominence, was found dead in the house of his mother-in-law in Barnesville Sunday. The cause of death was a bullet wound under the right ear, presumably due to the accidental discharge of a pistol he was cleaning. Owing to ill health he had retired from practice. He was formerly president of the Barnesville Savings Bank.

Hill Primaries in Doubt.

Hillsboro, Tex., April 14.—The result of the Democratic primary election in Hill county on Saturday is still in doubt as to congressman. Both Dudley G. Wooten's and Jack Beall's friends claim victory. The indications are in favor of eBall.

Killed Near Beaumont.

Beaumont, Tex., April 14.—Forwan Drum, employed at the second lift of the Beaumont Irrigation company's plant, 10 miles west of Beaumont, was shot and instantly killed. J. H. Hill came to town and surrendered to the sheriff.

Horses Burned to Death.

Ardmore, I. T., April 14.—Fire destroyed the livery stable, a brick structure, and contents belonging to T. B. Cathey. Seventeen head of horses perished in the flames. A fine mare belonging to Judge Townsend, valued at \$250, and his neat trap, were also burned. He carried insurance on both. The fire was of an incendiary nature. Estimated loss, about \$5000; insurance \$2800.

TRUCK FARMS RUINED.

Hail Destroys Prospects of Gardeners About League City.

League City, Tex., April 14.—The severe hailstorm here Sunday destroyed fully two-thirds of the strawberry crop. The berry fields are badly damaged. The crop was about at its height and the growers were expecting to ship by the carload this week. The cantaloupe and cucumber fields appear to be almost a total loss. Beans, peas, tomatoes and other garden truck are ruined. The hail lasted about 10 minutes and was accompanied by a heavy wind which did some damage to small dwellings and outhouses.

Brief Building Blown Down.

San Antonio, April 14.—The high wind which accompanied the heavy rain here Sunday did considerable damage in the suburbs of the city. A three-story brick building near the Aransas Pass depot, known as the MacKenzie pottery, and occupied by the Dueber company as a warehouse, was blown down and much loss sustained to the goods inside. A man and his wife who occupied rooms in the building had a narrow escape.

Hail and Rain at Webster.

Webster, Tex., April 14.—One of the severest hailstorms that ever struck here occurred Sunday with a strong wind and heavy thunder. The heavens were kept continually lighted with vivid lightning. The hail fell thick and fast for 15 minutes, then settled down to a downpour of rain, and in a short time everywhere was water. This was the heaviest waterfall since the 1900 storm.

Tremendous Hail.

Iredell, Tex., April 14.—The heaviest rain fell here Saturday that has fallen in this section for two years. Mixed with it was considerable hail northwest of here. The hailstorm was so terrific that the Bosque river at this place, standing half-bank full of water, was covered for two hours with at least one foot of hail. Fish of all kinds were chilled to death and were caught floating along the edges of the water.

Rain Fell in Sheets.

Yoakum, Tex., April 14.—The severest wind and rain storm since the time of the Galveston flood raged here Sunday from 3 to 4 o'clock. The rain fell in sheets and the wind blew 45 miles an hour. Damage as far as can be learned is estimated at \$5000.

Many Derricks Blown Down.

Beaumont, Tex., April 14.—The wind and rain storm which struck Beaumont about 4 o'clock Sunday morning did considerable damage in the city and to the oil field, but no one was injured on the field or in the city. Many derricks were blown down.

Want American Troops to Remain.

Manila, April 14.—The merchants of Lagroncy, in south Camarines, province of Luzon, have sent a message to General Chaffee praying that the Americans troops be not withdrawn from Legoncy. The merchants declare that they are unanimously of the opinion that if they are deprived of the protection of the military they will become victims of the lawless element at the cost of their lives and property. They said that if the American troops leave the town the enemy could reduce the food supply of the inhabitants and retard the advance of the soldiers coming to their rescue, and that such action would lead to irreparable damage.

Remarkable Piece of Engineering.

Pittsburg, April 14.—One of the most remarkable and cleverly executed pieces of engineering work ever performed in the country took place Sunday with the 2000-ton bridge of the Pittsburg, Fort Wayne and Chicago railroad spanning the Allegheny river between Tenth and Eleventh streets was moved a distance of about thirty feet to temporary piers to make way for the new double deck structure that is to take its place. The moving was done in such an incredibly short time that there was practically no interference of traffic.

Funeral of Wade Hampton.

Columbia, S. C., April 14.—In the presence of thousands of people, who came to pay their last tribute of love and respect to their dead chieftain, the body of Wade Hampton was buried in the old family lot in Trinity church yard Sunday. Every effort had been made by the family to have the funeral quiet, but this was impossible. The demonstration was the greatest ever occurring here.

Funeral of Dr. Talmage.

Washington, April 14.—Final arrangements for the funeral of T. DeWitt Talmage, the noted Presbyterian minister, who died Saturday, have not been completed. The remains will be buried at Brooklyn.

Inventor Reiley Dead.

Cumberland, Md., April 14.—Horace Reiley, the inventor of the locomotive pilot in 1840, and other railroad appliances, died here. He was 87 years of age.

Killed by Lightning.

Honey Grove, Tex., April 14.—Luther Sublett, a farmer living three miles north of this city, while returning home Sunday was struck by lightning and instantly killed.

Killed by His Horse.

Franklin, Tex., April 14.—Joel Parson was killed by his horse falling on him and crushing his head and breast. The accident occurred near Petteway, 12 miles north of here.

Orator Confederate Reunion.

New Orleans, April 14.—Gen. Gordon announces that Hon. John M. Allen of Mississippi, more familiarly known as "Private" John Allen, has been selected as the orator of the Dallas reunion.

A number of Republicans who are opposed to the bill have announced that they will vote to overrule the chair on that proposition, and the Democrats expect to be able to cast a solid vote for it. The weakness of the position of the friends of this proposition is that the test will not come directly on the amendment, but on the ruling of the chair. If a motion to recommit with instructions to report back such an amendment is made, it will be held not to be in order under the general authority of parliamentary law that the house cannot instruct the committee to do what it cannot do.

If the danger involved in the amendment to abolish the differential is passed the bill will have plain sailing on its final passage as a majority of the Democrats will vote for it.

They said that if the American troops leave the town the enemy could reduce the food supply of the inhabitants and retard the advance of the soldiers coming to their rescue, and that such action would lead to irreparable damage.
